ABSTRACT

This is the first of a series of 20 bibliographies providing information on a variety of topics. One hundred and forty-two listings comprise the bibliography on the topics of architecture and design, economics, education, energy, environment, housing, land use, landscape, planning, politics and government, recreation, social conditions, transportation, and urban concepts. The bulk of the documents are commercially published books and reports dated 1974-75, although a few 1973 sources are listed. In most cases, the citations are alphabetized by author or organization within each section and include the title, date, price and name of publisher. A list of publishers' addresses, an author index, and a title index conclude the document. (JR)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. Nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *
